

When it comes to what you really need in a satellite phone, Inmarsat's IsatPhone Pro delivers.

The ultimate combination: Global coverage, robust handset, clear voice quality, reliable network connection, long battery life, easy to use. Built for the most reliable network in the world.

INMARSAT ISATPHONE PRO

Reliable Network, Longer Battery Life , Clearer Voice Quality.

- **The essential services: satellite telephony, voicemail, text and email messaging, GPS location data**
- **The longest battery life: up to 8 hours talk time and up to 100 hours standby time**
- **The most robust handset: operates at -20°C to +55°C; dust, splash and shock resistant (IP54); humidity tolerance from 0 to 95 percent**
- **The only satellite phone to support Bluetooth: place the handset on its side, with full maneuverability of the antenna, for easy hands-free use**
- **Easy to use: intuitive GSM-style interface; high visibility color screen; larger keypad for easy dialing with gloves on**
- **Reliable network connection: operates over global geostationary satellites that will be operational int the 2020's; significantly less possibility of call dropping**
- **The ultimate value: highly competitive handset, accessories and pricing**

The Ultimate Combination

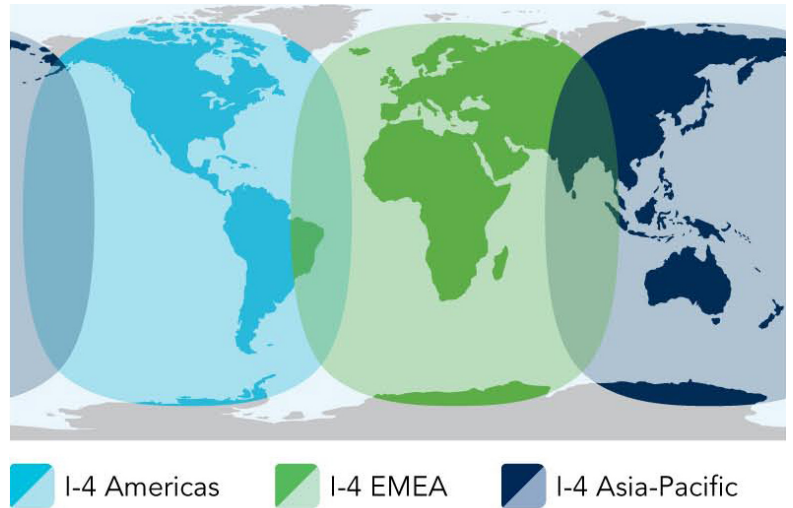

This phone is designed to work in just about any conditions – in rain storms, dust storms, searing heat to sub-zero cold, tropical humidity or freezing fog.

No worries about power when you're miles from anywhere; IsatPhone Pro has the longest battery life of any satellite phone available.

INMARSAT ISATPHONE PRO

Coverage: operates globally over the Inmarsat-4 satellites

This map depicts Inmarsat's expectations of coverage, but does not represent a guarantee of service. The availability of service at the edge of coverage areas fluctuates depending on various conditions.

Specifications
